

# Creating Copac

- How Copac is created from the CURL database
- New Copac database
- Recent developments

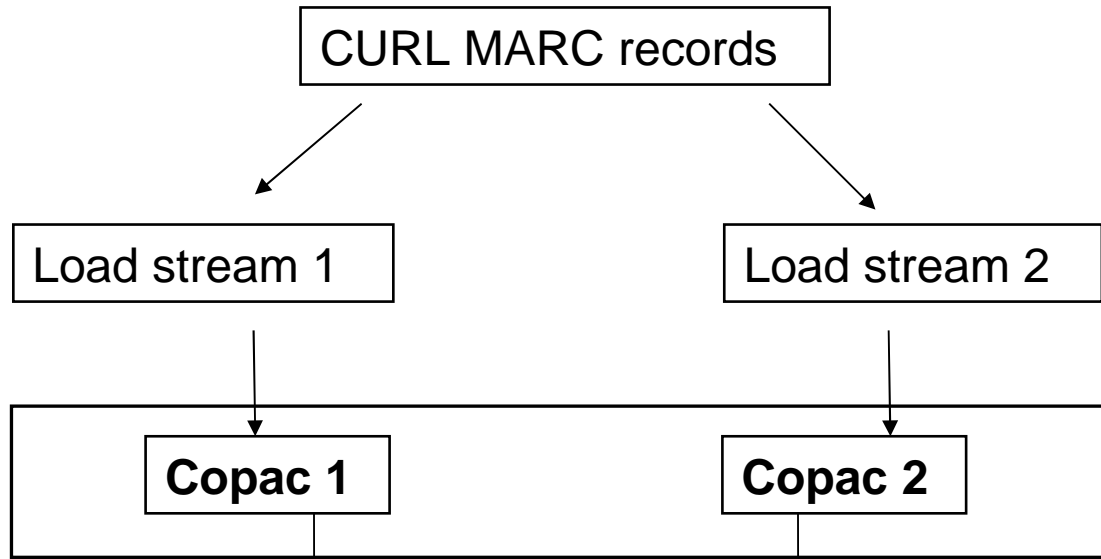

# CURL database vs Copac

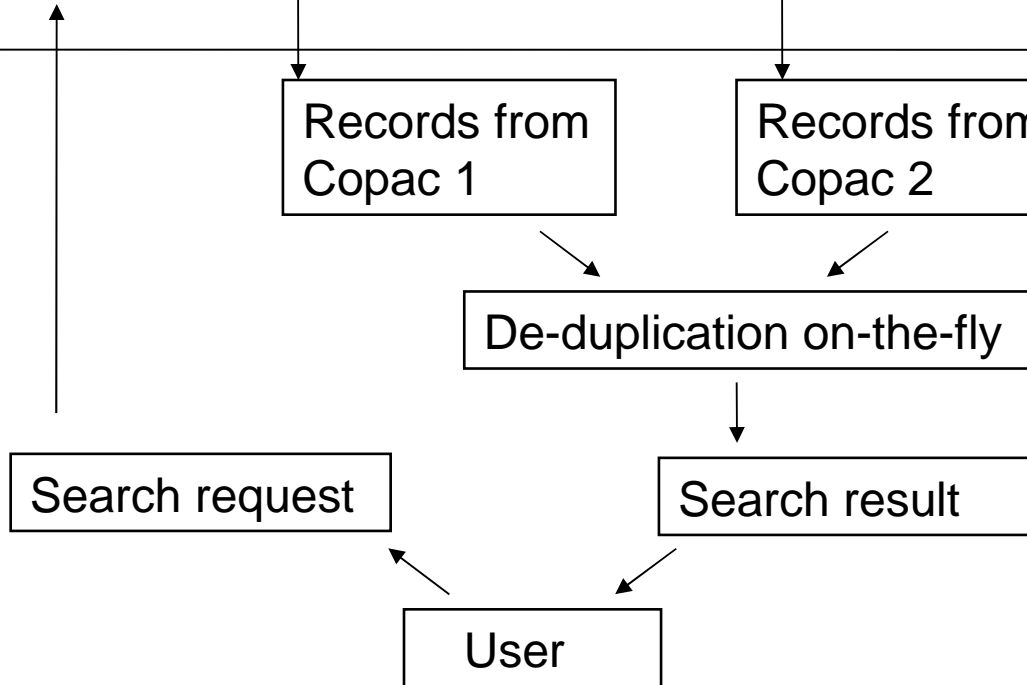

- Completely separate database
- Non-MARC record format
- Not an exact replica of the CURL database:
  - important that it *is* a replica of the local catalogue
  - completeness & currency

**Creating Copac**

**Searching Copac**

# What the User Sees

- Copac: **target="\_blank"**  
**onclick="window.event.cancelBubble=true;"**  
**style='position: relative'>Full record for ISBN**  
**0534496008**
- Local Holdings display
  - Live circulation data
  - Centrally held Local information
  - Local Record Numbers
  - Retain old record numbers, but...
  - *Must* be searchable for live circulation data
