The Portal allows you to browse and search across the 96303 open access research theses which are made available by the DART-Europe partners.

**PLEASE NOTE:** the DART-Europe E-theses Portal is a pilot service. Some features, particularly search/browse by institution and by language, are still under development: the reliability of these features and the availability of the Portal generally cannot be guaranteed. Benefits and Next Steps

- Research theses gain more visibility when available in electronic format, preferably Open Access
  - Good for research and good for the researcher
- Preferred mode of working is for DART-Europe to work with national aggregators
  - Important that UK research from EThOS can be seen alongside other European research
- DART-Europe working with DRIVER to model DART-Europe providing the European view on E-Theses
  - Possibly with a LIBER bid to the EU for funding
